

Winchester Town Day Committee

August 7, 2020

It is with a great deal of disappointment that, for the first time in 39 years, the Winchester Town Day Committee has had to cancel our community celebration.

Last winter, when the COVID-19 virus appeared on the west coast and began spreading to isolated areas across the country, we rescheduled the event for September 26th with the hope that the virus would be contained and normal life would resume by then. We looked forward to fulfilling the need for an uplifting community event and a boost to the local businesses and civic organizations.

Now, with cases rising around the country and the possibility of a resurgence in Massachusetts, holding an event that attracts thousands of people is not allowed under the current state restrictions.

We therefore join the long list of celebrations and events, from the Boston Marathon to watching baseball in person at Fenway Park, that are on hold this year. We hope that 2021 will bring a return to whatever the "new normal" is, and that Town Day can return on June 5th. We look forward to seeing you then!
